| | | |
|---|---|--------------------------------------|
| School/College | Address | Year 11 <u>12</u> 13 (please circle) |
| AS/A level (or equivalent) subjects taken (or being taken) Chemistry Physics Maths Politics | GCSEs (or equivalent) taken (with grades) or being taken History: A* Maths, Chemistry, Physics, Biology, English Lit, English Lang, Geography: A DT, IT: B Statistics: C | |

What is your general state of health?

Good

Work Experience

Please state what you hope to achieve from this work experience:

~~To do~~ I aim to discover what a career in Chemistry would involve on a day to day basis and what particular areas I would need to study in university that would help me with this.

It would also ~~be~~ interesting to find out about synthetic chemistry in a greater depth than A-Level

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University? What AS/A levels do you plan to study (if you have not already started)?

Undecided on the exact career, but am going to university study chemistry and am currently looking into different areas to see what interests me in particular.

ICT skills

Please mention any ICT skills and experience you have:

IT GCSE plus regular use of basic office programmes (e.g. Microsoft office)

Interests, Leisure Activities and Achievements

RYA level 2, Young Lifesaver Award, ~~and~~ ~~and~~ ~~and~~ kickboxing, swimming, guitar playing and cycling. The majority of my free time is spent working and doing the first two of the hobbies as well as reading about the latest advances, particularly in materials and renewable energy

I believe the particulars given above to be correct.

What is your general state of health?

Fit and Well

Work Experience

Please state what you hope to achieve from this work experience:

I hope that by participating in this scheme, I will gain an insight into the work of scientists and the world of medical research (in which I have always been fascinated), by achieving a deeper understanding of how medicines work and how new drugs are developed. I hope too that it will help me decide whether it would be something I would like to do as a career.

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University. What AS/A levels do you plan to study (if you have not already started)?

I am definitely hoping to go to university to study science (probably chemistry), but I am not sure ~~to~~ as to what career path to follow. I am more interested in working in research than in teaching, because I know I would enjoy being at the cutting edge of science and tackling the challenges it brings.

ICT Skills

Please mention any ICT skills and experience you have:

I do not have any formal qualifications in ICT, but I learnt it at School from age 11 to 13, and am competent using a computer.

Interests, Leisure Activities and Achievements

My interests include music, football, maths and politics. I also regularly play chess and draw cartoons, which I submit to competitions. I also play squash and tennis every week. I am Grade 4 in clarinet, and am currently completing D & E Silver.

I believe the particulars given above to be correct.

Work Experience

Please state what you hope to achieve from this work experience:

Working with people
Increasing my understanding and experience of a commercial environment.
Greater understanding of science behind medicines and drugs.

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University. What AS/A levels do you plan to study (if you have not already started)?

Thinking of going to University to study medicine

ICT Skills

Please mention any ICT skills and experience you have:

GCSE ICT Short Course

Interests, Leisure Activities and Achievements

Member of the National Academy for Gifted and Talented Youth at Warwick University.
Duke of Edinburgh Bronze Award - received 2004
Have attended UCL lectures "The Role of Chemistry in the Discovery of New Medicine" by Dr Janis Morris of GlaxoSmithKline

I believe the particulars given above to be correct.

What is your general state of health?

Excellent

Work Experience

Please state what you hope to achieve from this work experience:

I would like to gain experience in the drug business as this is one of the ideas I had for when I am older.

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University. What AS/A levels do you plan to study (if you have not already started)?

I am undecided but I am intending to go to University to take Chemistry and Maths. Ideas for a career and medicine, accountancy and chemistry related.

ICT Skills

Please mention any ICT skills and experience you have:

I got a grade C at GCSE level and have general word processing, spreadsheet and database skills.

Interests, Leisure Activities and Achievements

I am into Modelling as well as Walking/Hiking I am an Explorer Scout and also help with the local Beavers. I have gained my silver Duke of Edinburgh award.

I believe the particulars given above to be correct.

|---|

Work Experience

Please state what you hope to achieve from this work experience:

I believe that every experience is a good experience. I also think that you should make your profession in a subject you enjoy. This is why I chose my A-levels, because I love science and would like to become a scientist but before I make my final decision to do this I would greatly appreciate the experience of a real industrial lab and meet the type of people I will hopefully be working for and with it would help me decide and continue in my future.

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University. What AS/A levels do you plan to study (if you have not already started)?

I am positive that I will go to university. Hopefully I will be able to do either a Chemistry or Physics and Philosophy degree. Career-wise I am indecisive but my career will certainly include the sciences.

ICT Skills

Please mention any ICT skills and experience you have:

ICT GCSE - B
Whilst work experience at Capital FM I work continuously with computers. I learn quickly and need to be told only once.

Interests, Leisure Activities and Achievements

Debating,
Duke of Edinburgh, Bronze, Silver and Gold,
Teaching sailing to children,
Judo, dance, Self defense, chess, Running Lower School Science club.

I believe the particulars given above to be correct.

What is your general state of health?

Healthy

Work Experience

Please state what you hope to achieve from this work experience:

I hope to have a glimpse ~~to see of what~~ in a possible future career path that I could take allowing myself to make a choice based on suitable reasoning

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University. What AS/A levels do you plan to study (if you have not already started)?

I am still undecided at the moment but I feel I could pursue 2 possible career paths:

- studying Law at University with History A level
- Work my way into a career in the Army after a university course on pharmaceuticals

ICT Skills

Please mention any ICT skills and experience you have:

Achieved an A in ICT GCSE
Able to touch type
Familiar with Macs and windows or Linux OS's
~~A reasonable knowledge of computer based hardware~~

Interests, Leisure Activities and Achievements

I believe the particulars given above to be correct.

Work Experience

Please state what you hope to achieve from this work experience:

I would like to find out what is involved with the production of new drugs and vaccines. I am really interested in such a career and would like to know more so that I can see if it is what I want to do.

Career Choices

What future career are you considering? (If undecided please say so, but tell us your ideas). Are you thinking of going to University? What AS/A levels do you plan to study (if you have not already started)?

I am considering a career in chemistry, specifically chemical engineering. At present I am planning on going to university and reading either chemical engineering or biochemical engineering. Ideally I would love a career in R & D; especially to be involved with the research of new drugs.

ICT skills

Please mention any ICT skills and experience you have:

I studied a double award GCSE in Applied ICT and got AA

Interests, Leisure Activities and Achievements

In my free time I like to keep fit, primarily achieved by playing football and cycling. I have taught myself the drums and now I play in a band and in my church music group. I have completed my Duke of Edinburgh's Bronze Award, have got a Silver Crest Award, got a Gold in the UK intermediate mathematical challenge and I won the Dupont Schools Science competition in 2001.

I believe the particulars given above to be correct.
